MITCHELL FERNANDEZ

Full Stack Web Developer

PROFILE

Full Stack Web Development graduate from Coder Academy seeking a junior developer role. Proficient in diverse web technologies and a collaborative team player dedicated to contributing to company success. Blend of Customer Service background and strong computer skills. Committed to continuous growth and open to opportunities for skill refinement. Currently based in Japan with full working rights as a Permanent Resident Visa holder and unrestricted working privileges in Australia as an Australian Citizen.

KEY PROJECTS

MovieMaestro - Movie Randomizer

- Developed a movie randomizer website with a team of 2 other engineers using MERN stack.
- Showcases strong ability to work in a team as well as strong knowledge of front-end and back-end.
- Proficiently utilized MERN stack to create a highly useful and intuitive product. Strong focus on using React and its libraries.
- Product allows for very specific searching conditions including streaming platform and region to give the user suggestions to prevent doom scrolling.

Clothing Catalogue API

- Developed a robust Clothing Catalogue API using Python, Flask, and PostgreSQL.
- Showcases strong Backend Development skills in constructing a comprehensive clothing catalogue system.
- Proficiently utilized Python's Flask framework for building RESTful APIs and PostgreSQL for efficient data management.
- Implemented functionalities for managing clothing items, categories, and user preferences, ensuring seamless data retrieval and manipulation for a comprehensive catalog experience.

Hangman Terminal Application

- Developed a Hangman Game for Terminal using Python.
- Demonstrates strong Backend Development skills through Python and BASH scripting.
- Showcases problem-solving prowess by implementing game logic and user interaction features.
- Utilized user input and output functions proficiently, showcasing a robust understanding of terminal-based application development.
- Emphasizes clean code structure and adherence to coding standards, reflecting attention to detail and software quality.

SKILLS

- Front-end Development
- Back-end Development
- Database Management
- RESTful API's Development
- Back-end Frameworks
- Front-end Frameworks and libraries
- Design implementation
- Coding Principles
- Design Principles
- Customer Service Veteran
- Working within Diverse Environments
- Spoken and written communication skills
- Defusing and navigating tense situations

INTERESTS

- Coding
- Digital Art
- Drawing
- Video games (especially PC)
- Snowboarding
- Skateboarding
- Food
- Travel
- Animals

A BIT ABOUT ME

I was born and raised in Australia and have lived in many different parts of Australia.

After Australia, I lived in Canada where I met my wife who is from Japan! I took the leap to move to Japan and now live in Japan with my wife and two children.

I have a long working history in customer service but I have always been passionate about technology especially computers and games. This lead me to studying web development where I have truly found my passion.

I have taught English in Japan for 5 years now and while it has been an amazing journey I am ready to start my new journey as a Software Developer!

WORK EXPERIENCE

Seiha English Academy

2020 - Current

English Language Teacher - Osaka/Shiga Japan

- Facilitated the comprehension of complex and simple language fundamentals to diverse student groups, fostering an adaptive teaching style.
- Developed and executed interactive lesson plans and engaging educational games, showcasing creativity and the ability to create user-friendly experiences.
- Collaborated in team teaching environments with Japanese educators, honing collaborative skills and cultural sensitivity.
- Adapted teaching methodologies to meet varying student needs, demonstrating flexibility and problem-solving skills in dynamic classroom settings.

Forest International PreSchool

2019 - 2020

English Language Teacher - Osaka Japan

- Designed and implemented tailored lesson plans that cater to the individual learning styles and developmental stages of each student, ensuring personalized attention and effective learning outcomes.
- Demonstrated adaptability and resilience in navigating diverse cultural backgrounds and linguistic abilities, fostering an inclusive and welcoming environment where all students can thrive.
- Collaborated closely with parents and colleagues to provide consistent support and feedback, promoting a strong partnership in nurturing the holistic development of our students.

Heritage Bank

2018 - 2019

Member Service Officer - Toowoomba, QLD, Australia

- Managed high-volume inbound phone calls within the bank's call center, honing efficient communication skills and the ability to handle diverse customer inquiries.
- Handled sensitive financial information and managed customer finances with precision, showcasing trustworthiness and discretion in handling confidential data.
- Demonstrated proficiency in navigating computer systems, accurately inputting and managing customer data, highlighting strong technical aptitude and familiarity with software interfaces.
- Applied analytical thinking to assess and address customer financial needs, demonstrating the ability to analyze data and provide effective solutions.
